

CAPABILITY STATEMENT

Company: VacuPractor™
Contact: Paul Hagen
Phone: (425) 577-2713
Email: GovSales@vacupractor.com
Web Site: www.vacupractor.com

Core Competencies

VacuPractor is a revolutionary patented device for the self-treatment of lower back pain. The user lies on the device, creating a natural vacuum effect to gently pull the spine and stretch the muscles in the lower back area. Pain is relieved in as little as five to ten minutes of use. VacuPractor can be used at home, and it can be combined with other pain treatments as part of a patient's total care.

- FDA registered Class I orthopedic device for lower back pain
- Relieves pain quickly, in as little as 5-10 minutes
- Safe, affordable and easy to use at home
- All-natural remedy that can be combined with other treatments, if needed

Differentiators

VacuPractor works quickly and provides patients with an effective tool to personally manage lower back pain at home. Regular use could reduce or eliminate a patient's need for other more expensive approaches.

- Effective and affordable remedy for lower back pain
- Provides patients with an effective tool to relieve lower back pain at home
- Reduces/eliminates the need for other more costly treatments
- Made in the USA and Veteran-owned

Past Performance

VacuPractor is the recipient of the 2011 Zino Life Science Award, and has been evaluated with positive results by Washington State University and by multiple chiropractors, licensed massage therapists and sports trainers. VacuPractor users report a 90%+ success rate.
